PROFESSIONAL SUMMARY

Power Platform Developer with 9+ years of experience designing and developing enterprise-grade business applications using Microsoft Power Platform (Canvas Apps, Model-Driven Apps, Power Automate, Power BI) and SQL Server. Proven ability to analyze complex client requirements, design scalable solutions, and deliver end-to-end applications. Skilled in Agile/Scrum environments, cross-functional stakeholder collaboration, and full software development lifecycle. Microsoft-certified across the Power Platform stack with hands-on expertise in Dataverse, SharePoint Online, and application lifecycle management (ALM).

CORE TECHNICAL SKILLS

Power Platform: PowerApps (Canvas & Model-Driven), Power Automate, Power BI, Power Platform CoE

Databases & Storage: SQL Server, Dataverse, SharePoint Online, Oracle DB

Development Tools: ALM Accelerator, Azure DevOps, HTML/CSS, JSON, Nintex Forms & Workflows

Methodologies: Agile (Scrum), SDLC, Application Lifecycle Management (ALM)

Platform & Integration: Microsoft 365, Azure, SharePoint Online, ShareGate, SQL Server

Programming & Scripting: Power Fx, JavaScript, HTML, JSON, SQL

WORK EXPERIENCE

Adastra | *Data Engineer / Sr. Consultant* | May 2025 – Present

- Designed and implemented end-to-end business applications using PowerApps, Power Automate, SharePoint Online, and SQL Server, ensuring scalable and reliable architecture.
- Developed an Escalation Tracker App with multi-level approval workflows, automated notifications, and compliance checks, streamlining issue resolution.
- Built a scoring-based assessment system presenting results in interactive tables and charts, enhancing data visualization and decision-making for stakeholders.
- Automated generation of custom PDF reports improving reporting efficiency and stakeholder communication.
- Leveraged Power Automate flows for approvals, notifications, and cross-platform integration across Microsoft 365 services.

HCLTech | *Senior Consultant* | Jul 2022 – May 2025

- Extensively designed and developed complex Canvas Apps and Model-Driven Apps using Power Apps to meet specific business requirements and streamline operational processes.
- Built responsive Canvas Apps using modern containers and embedded them within Model-Driven Apps and Power BI dashboards for a unified user experience.
- Built and deployed numerous solution-aware Power Automate flows using ALM Accelerator, ensuring governance-compliant application lifecycle management.
- Architected complex multi-level approval workflows in Power Automate to automate business processes across Manufacturing, Beverages, and Banking & Finance domains.
- Migrated and rebuilt legacy applications from Nintex and .NET platforms to Power Platform, improving maintainability and reducing licensing overhead.
- Integrated multiple data sources including SharePoint, Dataverse, SQL Server, and Oracle DB for robust data storage and retrieval.
- Developed Power BI reports tailored to project requirements to support data-driven decision-making.

- Served as Solution Designer within the Power Platform CoE team, designing solutions aligned with governance and compliance requirements.
- Led a team of junior developers to build a governance solution featuring app ownership transfer, environment onboarding, and PowerApps lifecycle management.
- Delivered key projects including Timesheet Reporting, Document Translation Service, Leave Request Application, and multiple client-facing portals.

Accenture | Senior Analyst | Jul 2021 – Jun 2022

- Developed Power Platform solutions for a Swedish manufacturing company, including complex Power Automate flows and PowerApps forms aligned to client specifications.
- Re-created custom forms and workflows on Power Platform, replacing legacy solutions with modern, maintainable alternatives.
- Planned and executed migration of SharePoint 2013 sites to SharePoint Online using ShareGate, ensuring data integrity and minimal downtime.
- Took ownership of deployment and coordination for Power Platform solutions across multiple delivery cycles.

Deloitte USI | Analyst | Aug 2019 – Jul 2021

- Designed complex PowerApps and Power Automate flows to deliver client-specific features including multi-tab forms, JSON data handling, translation, and repeating sections.
- Built custom HTML forms with advanced features such as JSON data save/retrieve, multiple tabs, and localization/translation capabilities.
- Developed survey questionnaire applications and collaboration portals for clients across Japan, Portugal, Greece, UK, and the US.
- Worked directly with clients during the design phase to determine requirements and align UI/UX elements with user needs and business objectives.

Infosys | Senior System Engineer | Jan 2017 – Aug 2019

- Designed complex multi-functional Nintex Workflows and Nintex Forms for document management, task assignment, and user notifications.
- Delivered 2nd-level end-user support, resolving service desk tickets within approved SLAs.
- Managed SharePoint infrastructure at scale, overseeing 170 site collections with over 3,900 sites.
- Designed workflow-driven UI forms presented to end users during document processing and task actioning.

CERTIFICATIONS

- PL-400: Microsoft Certified: Power Platform Developer Associate
- PL-200: Microsoft Power Platform Functional Consultant
- PL-100: Microsoft Power Platform App Maker Associate
- PL-300: Microsoft Power BI Data Analyst
- PL-900: Microsoft Power Platform Fundamentals
- AZ-900: Microsoft Azure Fundamentals
- MS-900: Microsoft 365 Fundamentals
- SC-900: Microsoft Security, Compliance, and Identity Fundamentals
